

Asalaam Alaikum Parents,

It is now possible for you to see how your child(ren) enrolled at IASA are doing academically at school using Engrade. If you would like to view missing and completed assignments, attendance, teacher notes, and calendar, please provide the information needed below and send back to either the administration office or your child's homeroom teacher as soon as possible. You will receive a welcome email when registered and a letter will be sent home with your parent account information. Students in Pre-K and KG will have Engrade updated at least once every 2 weeks, due to the large class numbers. However, it may become more frequent as the routine is established, 1st through 6th grade will be updated weekly. Please be patient with teachers as they navigate around this new technology.

Jazak'Allah Khair.

-IASA Administration
